# HABIB

Full-Stack
AI Developer

## About Me

"Results-driven Full-Stack Developer specializing in architecting AI-driven solutions and high-performance web applications. Passionate about clean code, minimalist design, and building scalable products that meet global technical standards."

## Work Experience

**LEGAL-AI ENGINE**
Full-Stack Developer

Built an advanced analysis tool to identify legal risks in Real Estate contracts using AI. Integrated Next.js for a seamless user experience.

**VIDEO LOCALIZER**
AI Engineer

Developed an automated workflow for dubbing and script localization using AI voice synthesis and Python.

**PROPERTY PREDICTOR**
Web Developer

Engineered an AI platform to predict property price fluctuations in international markets like Dubai and Berlin.
